

# WOOD

## GOLD SERIES HUNG WINDOW

US DP RATING  
55

**Bonneville** is proud to present you the Gold Series Wood Hung Window. This enhanced design combines quality construction and improved aesthetics.

Extruded aluminum cladding on the frame and casing provides outstanding durability and dent resistance.

Exterior glazing replaces the interior glass stop, and all visible interior nail holes have been eliminated for improved aesthetic. This window looks just as good as it is built.

NEW INNOVATIVE  
Lock and Tilt Latch  
System

Locked position

Unlocked position

Lever position for retracting the tilt latches

Retracted tilt latches

Release latches and push in closed position

# Gold Series Wood Hung Window

A profiled bottom sash lift adds to the clean look. Choice of hardware in 6 colors.

A noncompression concealed jamb liner, enhances the beauty of the wood.

Insulated glass with THERMAL EDGE™ spacer bar provides energy efficiency.

## Outstanding Performances

The National Fenestration Rating Council (NFRC) was formed to establish a uniform method for calculating and testing the thermal performance of windows and doors. Bonneville Windows and Doors has earned NFRC quality certification. The NFRC label now appears on all products, attesting to Bonneville's consistent drive to uphold a reputation of quality that can be backed by such a widely-recognized certification.

Based on the tests results, the double hung window described in this report meets the requirements of the Standard AAMA/NWWDA 101/I.S. 2-97 regarding operating force, air infiltration, water resistance, uniform load structural, deglazing and resistance to forced entry.

The overall product designation of that window is: **H-R 55 (44 x 60), DP 55**

Based on the tests results, the single and double hung windows described in this report meet the requirements of the Standard CAN/CSA A440-00 regarding air infiltration, water resistance, wind resistance, screen resistance and forced entry resistance, with these performance levels, respectively:  
Double hung: **A3, B4, C5, S1, F20**

The international ENERGY STAR symbol is a simple way for consumers to identify products that are among the most energy-efficient on the market.

*Bonneville Windows and Doors offers a warranty that attests to the quality of the work and materials used to manufacture its products. For more information, ask your authorized dealer for our complete warranty policy.*
